

New Key Programming Software for Mazda* ADS2322 - Code D755119AD

March 2021

Advanced Diagnostics is pleased to announce the release of the ADS2322 key programming software for specific Mazda* models from 2019 onward worldwide.

What does the software do?

The ADS2322 software programs proximity keys with push button start for select Mazda* models. This software allows keys to be added or programmed from a lost key situation.

The software has been designed to bypass the PIN code automatically in the background, making it a seamless process when programming keys. The proximity key and remote functions are programmed simultaneously when using ADS2322.

This software requires a Wi-Fi connection to complete the programming procedure. No NASTF required.

What else will I need?

Smart Pro

OFFER DETAILS

Cable	ADC2000
