

Key Programming Software Update for VAG[®] ADS2292 - Code D753939AD

October 2020

Advanced Diagnostics is pleased to announce an update of the ADS2292 key programming software for VAG[®] models to include bladed keys for Audi[®] A1 and Q3 models, and for Volkswagen[®] Amarok, Caddy and Transporter.

What does the software do?

The ADS2292 software programs bladed and selected proximity keys for VAG[®] models.

All keys and remotes will be erased before programming new ones. The software bypasses the security pincode during the procedure and programs the remote and the transponder at the same time. A working key and the Smart Aerial are required to complete the programming procedure.

This software is available for Smart Pro only.

What else will I need?

Smart Pro

Smart Aerial

OFFER DETAILS

Cable	ADC2000
Smart Aerial required	Yes
Software category	A
Other accessories required	No
