

New Key Programming Software Subaru* 2022 ADS2286 - Code D753720AD

January 2023

Programmes Subaru 'H'- type bladed keys via the OBD even in an all keys lost situation.

What does the software do?

The software programmes 'H'-type bladed keys for a selection of popular Subaru* models like the Outback and the Crosstrek XV. When used together with the new ADC2015 emulator, replacement keys can be programmed even in an all keys lost situation. Programming is done directly via the OBD. The software bypasses the security pincode and programmes the remote and transponder at the same time.

No further intervention on the vehicle is needed.

What else is needed?

Smart Pro

Emulator ADC2015
(if no working key available)

OFFER DETAILS

Cable	ADC2000
Software category	A
Smart Aerial required	No
Other accessories required	ADC2015
